

ITCHY SALT RHEUM

Sometimes Called Eczema—Removed by Hood's Sarsaparilla

Salt rheum is one of the worst and unfortunately one of the most common of all diseases. How it reddens the skin, itches, oozes, dries and scales, and then does this all over again! Sometimes it covers the whole body with inflamed, burning patches and causes intense suffering, which is commonly worse at night.

Local applications may do some good, but they cannot permanently relieve. The disease will continue to annoy, pain, and perhaps agonize, until the blood has been purified and the general health improved.

Ask your druggist for Hood's Sarsaparilla, the good old reliable family remedy. It has given perfect satisfaction in thousands of cases. Insist on having Hood's Sarsaparilla, for no substitute acts like it. Get it to-day.—Adv.

Hopes Women Will Adopt This Habit As Well As Men

Glass of hot water each morning helps us look and feel clean, sweet, fresh.

Happy, bright, alert—vigorous and vivacious—a good clear skin; a natural, rosy complexion and freedom from ill-ness are assured only by clean, healthy blood. If only every woman and likewise every man could realize the wonders of the morning inside bath, what a gratifying change would take place.

Instead of the thousands of sickly, anemic-looking men, women and girls with pasty or muddy complexions; instead of the multitudes of "nervous wrecks," "rundowns," "brain fags" and pessimists, we should see a virile, optimistic throng of rosy-cheeked people everywhere.

An inside bath is had by drinking, each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, to wash from the stomach, liver, kidneys, and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach. Those subject to sick headache, biliousness, nasty breath, rheumatism, colds, and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store, which will cost but a trifle, but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. It is more important than outside cleanliness, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.—Adv.

POWER TO CALL RESERVES

Is Given President in House Amendment to the Army Bill

AUTHORIZING INCREASED FORCE

Rep. Gardner Gets Another Amendment Through After Kahn's Reverse

Washington, March 22.—An amendment giving the president a free hand to call out regular army reserves in case of war or threatened hostilities was made by the House yesterday to the Hay army reorganization bill. Its effect would be to increase the army by 60,000 at a stroke of the president's pen, without awaiting action of Congress.

The amendment was the most important change yet made to the House bill, but offered by Representative Kahn of California. It was accepted by Chairman Hay and the House without debate. Kahn offered another amendment to create more reserves in the regular army by permitting a discretionary one-year enlistment. Many members scored the present long term and small pay enlistment. Kahn's proposed amendment would allow men to leave the army after one or two years and remain in reserve for the rest of the seven-year enlistment period.

The amendment was defeated, 113 to 108. Encouraged by the narrow margin by which the Kahn amendment was defeated Representative Gardner re-offered the first proposition of that amendment in a new language. It was carried 128 to 117, being the first defeat for Chairman Hay during consideration of the bill.

Mr. Gardner said this provision would encourage enlistment and help to build up a well trained reserve.

"Uncle Joe" Cannon announced his support of the Hay bill. "It is more than a peace bill," he said, declaring that 50,000 youths should be allowed to enlist for one year's training annually. He said if boys under 21 had not enlisted in the Civil war, the confederacy would have won.

On the closest vote since the bill was taken up the Kahn short-term enlistment amendment was defeated 113 to 108. It was an almost solid party line, the Democrats voting in the negative.

Representatives Keating, O'Shaughnessy, Fields, Sherman and Hull were Democrats voting with the Republicans for the amendment.

The House also rejected an amendment by Representative Townner to have two regiments of infantry in Porto Rico instead of one.

IF HAIR IS TURNING GRAY, USE SAGE TEA

Here's Grandmother's Recipe to Darken and Beautify Faded Hair

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of sage tea and sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of sage and sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe, improved by the addition of other ingredients, for 50 cents a large bottle, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and luster of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now, because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous. This ready-to-use preparation is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.—Adv.

MARRIED MEN KICK HARDER AT RECRUITING METHODS

Tear Down Posters Calling Them Up Before Single Men Have Been Summoned.

London, March 22.—The agitation on the part of the married men against a call to the colors before eligible single men have all joined the army, is increasing in intensity. In some of the London suburbs, such as Bulwark and Camberwell, posters calling up groups of married men who have attested have been torn down. Police are searching for the offenders.

The Earl of Derby received a deputation of married men yesterday.

Beef and Hogs Firm and Veal Somewhat Lower.

St. Johnsbury, March 22.—At W. A. Ricker's market beef and hogs are reported firm, but veal is somewhat lower. Best milkers sell well, while others are lower. Receipts for the week ending March 20 include: Poultry—200 pounds, 12c. Hogs—234, 8@9c. Cattle—181, 3 1/2@4c. Calves—400, 4@5c. Milch Cows—17, \$60@80.

IN BOSTON MARKETS.

Storage Butter Disappearing Rapidly and Price is Strong—Egg Prices Firm.

Boston, March 22.—Current prices for butter tend to restrict the demand locally, but holders remain very strong in their price ideas, for weather conditions are still unfavorable for production and there has been such a rapid depletion of storage holdings that they no longer provide much of a reserve to fall back on. Strength in the outside markets also tends to stiffen the backs of local dealers. The cheese market holds firm, but through any lack of supplies, but because of a light production of new cheese and the fact that prices abroad suggest a possibility of export business. There is still a very close clearance of eggs, with prices firmly maintained on all grades.

Jobbing quotations: Butter—Fancy northern creamery, tubs 36@37c, boxes 37 1/2@38c. Prints 38@38 1/2c, fancy western creamery 35 1/2@36c, fancy storage creamery, northern 35@36c, western 34@35c, good to choice creamery 33@34c.

25 CENTS DESTROYS YOUR DANDRUFF AND STOPS FALLING HAIR

Save Your Hair! Make It Thick, Wavy and Beautiful—Try This!

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scourge.

There is nothing so destructive to the hair as dandruff. It robs the hair of its luster, its strength and its very life; eventually producing a feverishness and itching of the scalp, which, if not remedied, causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine to-night—now—any time—will surely save your hair.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and after the first application your hair will take on that life, luster and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance, an incomparable gloss and softness; but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.—Adv.

BEEF STOCK EASIER.

Slight Shading of Prices at Brighton Market.

Brighton, Mass., March 22.—Prices eased off a little at the Brighton stockyards yesterday, though actual reductions in values were not particularly notable. Changes were more in sentiment than otherwise, shippers being much disappointed at the outcome after the strength shown last week.

Best beef cattle sold at 8 1/2@8 3/4c, but some very good offerings brought only 8c, and an easier tone was reported by shippers. The range on good cattle was 7@8c, with light cattle at 6 1/2@7c.

For the best beef cows and heifers the range was about 6@6 1/2c, though an occasional fancy animal brought more. Good cows sold at 5 1/2@6c and with ordinary cows at 5@5 1/2c and canners at 4@4 1/2c.

Bulls sold at 6@6 1/2c for top, average stock bringing 5 1/2@6c and bologna bulls 4 1/2@5c.

Calves were easier with best lots at 8 1/2@9 1/2c, though an occasional fancy lot brought 10c. Fair lots sold at 7@8c, and grassers and drinkers at 4 1/2@6c.

No change was noted in hogs, though buyers were a shade less eager than last week. Best lots sold at around 10c, the range being 9 1/2@10c, with rough lots at 9 1/4@9 1/2c and boars at 4@4 1/2c.

Supplies of sheep and lambs were moderate, sales being made at 8 1/2@9c for the best lambs, the range for all offerings being 7@9c. Sheep sold at 4 1/2@6c, and occasionally 7c.

Trading in milch cows was quiet and prices easy. Ordinary milkers did not bring over \$35@35.50, with good milkers at \$60@75 and fancy milkers at \$80@100 and now and then a little more.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle.

Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action, yet always effective.

They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities.

You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. All druggists.

Spring Overcoats

The Hart Schaffner & Marx Chesterfield for spring is a dignified overcoat with plenty of style; good for any occasion, business or over a dress suit.

The fabrics are dark oxford grays, blacks and dark mixtures. The coat has a fly front, a cloth collar; just suggests the figure.

Instead of a young man's coat good for older men, we call it "a man's coat with style enough for young men."
